

Unmanned Systems in Defence Conference

Land Forces 2016

Adelaide, September 6-8

Sponsorship Opportunities

SPONSORSHIP OPPORTUNITIES

Flexible sponsorship packages are available to highlight your organisation and support the AAUS conference.

The Australian Association for Unmanned Systems conference at Land Forces 2016 will attract Defence, Industry & Academia from around the world to present, promote and discuss unmanned technologies. The 2016 conference will be held on Thursday September 8 at the Adelaide Convention Centre during the Land Forces event and will focus on unmanned technologies relevant to future defence programs, particularly land force applications.

The themes will cover unmanned technologies relevant to LAND 129 Phase 4, NMP 1942, SEA 129 Phase 5, AIR 7000 Phase 1b, the armed medium altitude unmanned aircraft requirement and the potential manned, unmanned combination for the replacement of the Army's Tiger Helicopter, both highlighted in the recent Defence Integrated Investment Plan, in addition to the latest leading edge research and development.
